

# Component Video Cable High Performance Digital Cable GPAV-RGBLR-XX

Ordinary cables just aren't able to deliver the incredible video output that is possible from the latest high-performance electronic devices. GoldX® Products Component Video Cables by JDI allow your electronics to operate at their full potential. Helping produce the optimum in video quality, these cables are designed to connect your high-performance video monitor using Component (Y, Pr, Pb or Y, Cr, Cb) inputs. Signal delivery is transferred in real time, without corruption. GoldX® Audio Cables enhance the performance of your audio connections. These high-performance cables enable you to obtain a better sound quality from today's sophisticated electronic equipment. Take your electronic investments to peak performance levels with JDI Component Video and Analog audio Cables.

The connectors of the Component Video Cable are especially molded to provide a textured comfort grip to make the installation of the product easier. Adding to the ease of installation are integrated labels, which are color-coded for easy identification.

The maintenance of signal integrity is also assured by a high-density, double-layer shielding. An oxygen-free copper durable PVC jacket surrounds the center conductor. This yields a high quality digital signal along with flexibility strength and appeal. The inner shield has 100% Mylar backed aluminum foil. This prevents high frequency signal noise and interference. The outer shield consists of a copper braid, which prevents most low frequency signal noise and interference.

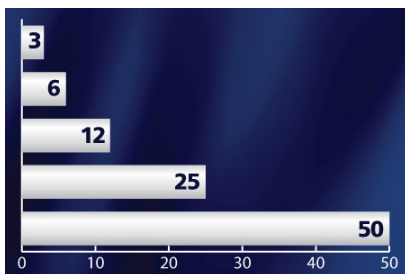

The 24k gold contacts make for maximum signal transfer and corrosion resistance. These contacts are precision-machined and provide reduced signal loss at the connectors.

### Features:

- 24K Gold plated studio grade connectors
- Improved signal transfer with high grade oxygen-free copper wire
- Corrosion-resistant connectors designed for maximum conductivity and low signal loss
- Dual Shielding reduces interference, noise and distortion
- Balanced cable for optimum performance
- Designed for Y, Pr, Pb Video with Left & Right Audio Connections

### Available lengths in Feet

### Comfort Grip Molding
